

**CPE
WIRELESS REMOTE CONTROL**

OUR NEW CPE WIRELESS REMOTE CONTROL WORKS WITHOUT CABLES OR SWITCHES. THE UNIQUE DESIGN ALLOWS YOU THE FLEXIBILITY TO OPERATE YOUR WINCH WITHOUT THE RESTRICTION OF WIRES FROM UPTO 50ft.

- UNIQUE EASY TO FIT DESIGN
- DETACHABLE FOR EASE OF USE AND EXTRA SECURITY
- REMOTE RANGE UPTO 50ft
- WEATHERPROOF TRANSMITTER AND RECIEVER
- TRANSMITTER EQUIPED WITH LONG LIFE BATTERY
- WORKS ON MOST ELECTRICAL WINCH TYPES
- CAN FIT TO ALL TYPES OF CPE MODELS
- NOW WITH TWO CONTROL UNITS (1 SPARE)

WARNING - The CPE wireless remote is designed to use with vehicle front mount self-recovery winches only. The remote is not designed for and should not be used on winches or hoists in industrial or commercial applications.

**CAN BE USED ON ALL WINCHES FROM 2500A TO 15000N
AVAILABLE IN 12V OR 24V**

LODAR –INDUSTRIAL /COMMERCIAL WIRELESS REMOTE

an Inexpensive, Industrial Range of Radio Wireless Solutions for Commercial Vehicle Winches and other Industrial applications.

Lodar Industrial Radio Wireless Remote Controls do exactly what they say. By using a Remote Radio Wireless Transmitter they will allow a Winch system, or any other Industrial application, to be remotely controlled up to 200 feet away.

The Receiver is mounted by the Winch and receives signals from the Radio Wireless Transmitter, subsequently operating the solenoids or valves – instantaneously.

No more damaged Winch control cable

4 AND 6 FUNCTION AVAILABLE ON REQUEST

Safety is an important element in the design of the new Lodar 9000. ALL models have an Electronic Stop System (ESS), with the Reset now being controlled from the Transmitter. The Receiver no longer has relays but solid state switching, overcoming the potential problem of sticking relays and allowing close control of the current to prevent burnt tracks in the event of overload.

LODAR have been manufactured for fourteen years. It is well recognised that you can't make quality products unless all areas for error have been identified and eliminated. the new LODAR 9000 incorporates all the latest technology

All LODAR products carry a **2 year warranty**. We will replace free of charge both Transmitter and Receiver, without question, during this period, unless there has been definite mistreatment of the product.
